Were the world mine...

LIMITLESS EXTENSIBILITY

Plone is a team player.

Authenticate with Active Directory, LDAP, OAuth, and many more.

Interact with data from SQL, XML or JSON based systems? Yes, of course. Do you want that plain or as data-visualisation?

From analyzing texts with machine learning to faceted search in large collections of media files, Plone has a high-quality add-on ecosystem for almost any purpose.

Plone is yours.

Choose from hundreds of add-ons for document and content storage, content delivery, forms processing, social syndication, personalization, and more.

If it is out there, you can connect to it.
